Title: Gallup/EBRI Poll: Public Attitudes on Health Care Costs

Survey Organizations: Gallup Organization

Sponsors: Employee Benefit Research Institute

Field Dates: June 1 - 30, 1991

Sample: National adult

Sample Size: 1001

Interview Modes: Telephone Interview, Landline

Weight Location: None

Usage Notes: Columns locations are found to the right of the question in this format (CC), where CC = Column(s).

Please note that data provided by the Roper Center for Public Opinion Research may not be re-disseminated without written permission. The results of any analyses conducted on the data may, however, be published with appropriate acknowledgments and source citation.

Introduction

Employee Benefit Research Institute (EBRI) of Washington, D.C., commissioned The Gallup Organization, Inc. of Princeton, New Jersey to conduct a national public opinion study regarding consumer behavior and attitudes about health care costs. EBRI was responsible for suggesting subject areas and Gallup was responsible for ensuring that questions were properly asked and without bias.

During June 1991, 1,001 Americans age 18 and odler across the continental United States were contacted by telephone from randomly generated telephone lists. Random lists eliminate bias against newly listed and unlisted telephone numbers. Gallup uses a three-callback methodology in which up to three calls are made to the same telephone number in order to eliminate bias in favor of those easy to reach by telephone.

As part of Gallup's quality-control procedures, ten percent (10%) of all interviews are checked by supervisory personnel to ensure that data is accurate and properly procured. All interviews are conducted in Gallup's communication facility by professionally trained interviewers under exclusive employment of The Gallup Organization.

The maximum expected error range at the 95% confidence level for a study of 1,001 respondents is $\pm 3.1\%$. Stated more simply, if 100 different samples of 1,001 persons each were randomly chosen from the population, 95 times out of 100 the total results obtained would vary no more than ± 3.1 percentage points from the results that would be obtained if the entire population were surveyed. The maximum expected statistical error range at the 95% level of confidence is given in the following table:

EXPECTED ERROR RANGE FOR A MARKET SAMPLE OF 1,001 RESPONDENTS*

Results About:	10%	20%	30%	40%	50%	60%	70%	80%	90%
Error Range:	±1.9	±2.5	±2.8	±3.0	±3.1	±3.0	±2.8	±2.5	±1.9

* At the 95% confidence level

Record Layout

Hello, this is _____ calling from a national market research firm. We are conducting a very brief study on awareness of companies that do opinion polling. May I please speak with the youngest male, 18 years of age or older, who is now at home. (If "No male," ask:) May I please speak with the oldest female, 18 years of age or older who is now at home? We are conducting a national study of people's opinions on a variety of topics. First of all...

(VALIDATE PHONE NUMBER AND THANK RESPONDENT)

Annette Smolik - NBRI (Project Registration #89030280)

INTERVIEW TIME: _____ _____ (1477) (1478)

13. Do you think the cost of health care is rising (read 1-4)?

1 At a much lower rate than inflation
2 At about the same rate as inflation
3 At about double the rate of inflation, OR
4 At about triple the rate of inflation
5 (DK/Not sure)
6 (Refused)

13 (1077)

COI 32

14. People have different ideas about what is causing health care costs to go up. For each of the following, say whether you think it is one of the most important reasons (MIR), a major reason (MJR), a minor reason (MNR), or not a reason at all (NRA). How about (read and rotate A-G)?

		MIR	MJR	MNR	NRA	(DK)	(RF)	
A.	Malpractice suits against doctors and hospitals	1	2	3	4	5	6	14.10(1118) col 34
B.	Incomes for doctors	1	2	3	4	5	6	14.11(1119) col 36
C.	Profits for drug companies	1	2	3	4	5	6	14.12(1120) col 38
D.	Inefficiency and waste at hospitals	1	2	3	4	5	6	14.13(1121) col 40
E.	Fraud in programs like Medicare and Medicaid	1	2	3	4	5	6	14.14(1122) col 42
F.	Profits by private insurance companies	1	2	3	4	5	6	14.15(1123) col 44
G.	Paperwork required by insurance companies and government	1	2	3	4	5	6	14.16(1124) col 46

15. Which of these statements comes closer to your view? (Read and rotate 1-2)

1 One of the biggest reasons why health care costs are growing is that older people, who need more health care than any other group, make up an increasingly large part of the population

OR

2 Older people are no more responsible for growing health care costs than any other part of the population. Many of the most expensive medical problems (AIDS, premature births, traumatic accidents) happen most frequently to younger people

3 (DK/Not sure)
4 (Refused)

15 ___ (1125) col 48

16. Which of these statements comes closer to your view? (Read and rotate 1-2)

1 New medical technologies are helping to save costs in health care, as they have in every other industry

OR

2 New medical technologies are driving up health care costs by extending people's lives and causing larger hospital and medical bills

3 (DK/Not sure)
4 (Refused)

16 (1126) col 50

17. Here are three possible reasons why health care costs are going up. Which of these three reasons do you consider most important, and which do you consider least important? (Read and rotate 1-3)

1 Greed, waste, paperwork, malpractice, high profits, and other expenses that don't really have much to do with health care

2 New medical technologies that extend people's lives and create much larger hospital and medical bills

3 A growing number of older people who need more health care than any other age group

4 (None of these)
5 (All equal)
6 (DK)
7 (Refused)

Most Important: 17.10 (1127) col 52

Least Important: 17.20 (1128) col 54

18. Do you agree (A) or disagree (D) with the following statements? (Read and rotate A-C)

		A	D	(DK)	(RF)	
A.	Many people over 65 have no health care coverage at all	1	2	3	4	18.10(1132) CO 57
B.	Many people on welfare have no health care coverage at all	1	2	3	4	18.11(1133) CO 58
C.	The most practical and realistic way to provide health care coverage for people who don't have it now is to pay for it by cutting some of the waste, malpractice, high profits and salaries, or unnecessary paperwork in our current system	1	2	3	4	18.12(1134) CO 60
