CBS News and The New York Times conducted 3 panel surveys in which respondents who were first contacted Sept. 3-5, 1991 were re-contacted. The first panel survey was conducted on Oct. 9, 1991 followed by another on Oct. 13, 1991, and finally a third on Oct. 14, 1991.

The original sample of 1,519 respondents was split into two separate panel samples. The first panel sample was used for the Oct. 9, 1991 survey in which we re-contacted 512 respondents. The second panel sample was used for the Oct. 13, 1991 survey in which we re-contacted 501 respondents. For the Oct. 14, 1991 survey we re-used the first panel sample and contacted 497 respondents, some of whom had already been re-contacted once for the Oct. 9, 1991 survey.

Careful attention should be paid to the proper selection of the day for each survey in order to ensure that correct percentages are tabulated.
