Title: Los Angeles Times Poll: Koreans in Los Angeles County

Survey Organizations: Interviewing Services of America, Inc. of Van Nuys, CA

Sponsors: Los Angeles Times

Field Dates: February 26 - March 27, 1992

Sample: Adult Korean residents of Los Angeles County, California

Sample Size: 750

Interview Modes: Telephone Interview

Weight Location: Columns 284-289 (xx.xxx) – Varname: WEIGHT

Usage Notes: This dataset has been converted from ASCII. Do not use column locations on the questionnaire as they refer to the original ASCII data. Use the new data locations in the PDF document for the ASCII dataset provided for download.

Please note that data provided by the Roper Center for Public Opinion Research may not be re-disseminated without written permission. The results of any analyses conducted on the data may, however, be published with appropriate acknowledgments and source citation.

HOW THE POLL WAS CONDUCTED

The Times Poll interviewed 750 adult Korean residents of Los Angeles County, from Feb. 26-March 27, 1992. The survey was obtained by dialing random telephone numbers in areas where the Korean population is concentrated, supplemented by sampling from lists of Korean-surnamed households countywide. Respondents were interviewed in either Korean or English by interviewers proficient in both languages. Translation and interviewing were conducted by Interviewing Services of America Inc. of Van Nuys. The margin of sampling error for the total sample is plus or minus 5 percentage points. For subgroups the error margin may be somewhat higher. Poll results can also be influenced by other factors, such as question wording and the order in which questions are presented.
