Title: Los Angeles Times Poll #286: California Primary Exit Poll

Survey Organizations: Los Angeles Times

Field Dates: June 2, 1992

Sample: California voters leaving voting booths,

Sample Size: 7817

Interview Modes: Telephone Interview

Weight Location: Card 1, Columns 55-59 (xx.xxx)

Usage Notes: Some questions, which use only 1 column for data, allow legitimate punches for 10 & 11.
10 will correspond to 'X' in the data file and 11 will correspond to 'Y' in the data file.

Please note that data provided by the Roper Center for Public Opinion Research may not be re-disseminated without written permission. The results of any analyses conducted on the data may, however, be published with appropriate acknowledgments and source citation.

CALIFORNIA PRESIDENTIAL PRIMARY EXIT POLL

This Los Angeles Times Poll is one of a series of surveys undertaken to sample the opinions of voters as they participate in key elections. This particular exit poll was conducted during the primary nominating process in California for statewide and federal offices.

The sampling frame for this exit poll is all primary voters in the state. Seven thousand eight hundred seventeen voters were interviewed between the hours of 7 A.M. and 8 P.M PDT, on June 2nd, 1992, as they left polling places in 120 randomly selected election districts in all parts of the state.

In 19 cases out of 20, the results based on all the responses in a study such as this will have a sampling error of no more than three percentage points in either direction from what would have been obtained by interviewing every primary voter in California in the same way. Confidence limits for smaller subgroups will, of course, be larger. For example, the 4,390 Democratic and 3,001 Republican voters have a sampling error of two percentage points in either direction In addition, surveys of this kind may be subject to errors not associated with sampling methods but resulting instead from the practical difficulties involved in conducting any survey of public opinion.

The sample was designed to be self-weighting for Democratic and Republican voters according to their probability of selection within the sample.

John Brennan is the director of the Los Angeles Times Poll, which is conducted under the general supervision of Martin Baron, assistant managing editor. Susan Pinkus is the assistant director, Roger Richardson is the field supervisor, Jill Milburn is the systems analyst and Claudia Vaughn is the data coordinator.

Further information regarding this study is available by writing to the Los Angeles Times Poll, Times Mirror Square, Los Angeles, California 90053, or by calling (213) 237-7976.
