Title: Roper Reports 92-8

Survey Organizations: The Roper Organization

Field Dates: August 8 - 15, 1992

Sample: National adult

Sample Size: 2000

Sample Notes: Forms are located in column 5. Combine punch 1 and punch 2 for form X. Form Y = 3.

Interview Modes: Face-to-face interview

Weight Location: Columns 404-407 (xx.xx)

Usage Notes: This dataset was converted from Binary to ASCII. The variable cross-reference file (VXREF) describes the column changes. This Roper Report survey has three versions, 'Xa', 'Xb' & 'Y'. But for all intensive purposes there is only 'X' & 'Y' in the documentation. In the questionnaire, 'W' is substituted for 'X'. The location for the two versions is in column 5. Be sure to pay attention when running data that you are selecting the correct version if necessary.

Please note that data provided by the Roper Center for Public Opinion Research may not be re-disseminated without written permission. The results of any analyses conducted on the data may, however, be published with appropriate acknowledgments and source citation.

11. With regard to our Federal Government, some people think it is better to have the majority in Congress and the President in the same political party so they will work together and get more accomplished. Other people think it is better to have one party control Congress and the other party to be in the White House so there are checks and balances between the two branches of government. What do you think--that it is better to have one political party in control of both Congress and the White House, or that it is better to have opposite parties in control of the two branches?
