Country: United States

Title: Pew Research Center Poll: January 2012 Political Communications Survey

Survey Organizations: Princeton Survey Research Associates International

Sponsors: Pew Research Center for the People & the Press

Field Dates: January 4 - 8, 2012

Sample: National adult

Sample Size: 1507

Sample Notes: This study contains sampling using landline telephones and cellular phones. Use SAMPLE in column 7, where 1=landline and 2=cellular. There are 2 forms for this study located in column 40. Form 1=1; Form 2=2.

Interview Modes: Telephone Interview, Landline; Telephone Interview, Cell Phone

Weight Location: Columns 185-189 (xxx.xx) -- Varname: WEIGHT

Please note that data provided by the Roper Center for Public Opinion Research may not be re-disseminated without written permission. The results of any analyses conducted on the data may, however, be published with appropriate acknowledgments and source citation.

Methodology

January 2012 Political Communications Survey

Prepared by Princeton Survey Research Associates International
for the Pew Research Center

January 2012

SUMMARY

The January 2012 Political Communications Survey, sponsored by the Pew Research Center, obtained telephone interviews with a nationally representative sample of 1,507 adults living in the United States. Interviews were conducted via landline (n_{LL}=902) and cell phone (n_C=605, including 297 without a landline phone). The survey was conducted by Princeton Survey Research Associates International. The interviews were administered in English and Spanish by Princeton Data Source from January 4-8, 2012. Statistical results are weighted to correct known demographic discrepancies. The margin of sampling error for the complete set of weighted data is ±2.9 percentage points.

Details on the design, execution and analysis of the survey are discussed below.

DESIGN AND DATA COLLECTION PROCEDURES

Sample Design

A combination of landline and cellular random digit dial (RDD) samples was used to represent all adults in the United States who have access to either a landline or cellular telephone. Both samples were provided by Survey Sampling International, LLC (SSI) according to PSRAI specifications.

Numbers for the landline sample were drawn with equal probabilities from active blocks (area code + exchange + two-digit block number) that contained three or more residential directory listings. The cellular sample was not list-assisted, but was drawn through a systematic sampling from dedicated wireless 100-blocks and shared service 100-blocks with no directory-listed landline numbers.

Contact Procedures

Interviews were conducted from January 4-8, 2012. As many as 7 attempts were made to contact every sampled telephone number. Sample was released for interviewing in replicates, which are representative subsamples of the larger sample. Using replicates to control the release of sample ensures that complete call procedures are followed for the entire sample. Calls were staggered over times of day and days of the week to maximize the chance of making contact with potential respondents. Interviewing was spread as evenly as possible across the days in field. Each telephone number was called at least one time during the day in an attempt to complete an interview.

For the landline sample, interviewers asked to speak with the youngest adult male or female currently at home based on a random rotation. If no male/female was available, interviewers asked to speak with the youngest adult of the other gender. This systematic respondent selection technique has been shown to produce samples that closely mirror the population in terms of age and gender when combined with cell interviewing.

For the cellular sample, interviews were conducted with the person who answered the phone. Interviewers verified that the person was an adult and in a safe place before administering the survey. Cellular respondents were offered a post-paid cash reimbursement for their participation.

WEIGHTING AND ANALYSIS

The first stage of weighting corrected for different probabilities of selection associated with the number of adults in each household and each respondent's telephone usage patterns.[1] This weighting also adjusts for the overlapping landline and cell sample frames and the relative sizes of each frame and each sample.

This first-stage weight for the ith case can be expressed as:

$$WT_i = \frac{1}{\left(\frac{S_{LL}}{S_{CP}} \times \frac{1}{AD_i}\right)} \; if \; respondent \; has \; no \; cell \; phone$$

$$WT_i = \frac{1}{\left(\frac{S_{LL}}{S_{CP}} \times \frac{1}{AD_i}\right) + R} \; if \; respondent \; has \; both \; kinds \; of \; phones$$

$$WT_i = \frac{1}{R} \; if \; respondent \; has \; no \; land \; line \; phone$$

Where S_{LL} = size of the landline sample

S_{CP} = size of the cell phone sample

AD_i = Number of adults in the household

R = Estimated ratio of the land line sample frame to the cell phone sample frame

The equations can be simplified by plugging in the values for S_{LL} = 902 and S_{CP} = 605. Additionally, we will estimate of the ratio of the size of landline sample frame to the cell phone sample frame R = 0.72.

The second stage of weighting balances sample demographics to population parameters. The sample is balanced by form to match national population parameters for sex, age, education[2], race, Hispanic origin, region (U.S. Census definitions), population density, and telephone usage. The Hispanic origin was split out based on nativity; U.S born and non-U.S. born. The White, non-Hispanic subgroup is also balanced on age, education and region. The basic weighting parameters came from a special analysis of the Census Bureau's 2011 Annual Social and Economic Supplement (ASEC) that included all households in the United States. The population

[1] i.e., whether respondents have only a landline telephone, only a cell phone, or both kinds of telephone.

[2] The occupational/vocational educational attainment classification was moved to the "Some college" category to reflect the updated answer categories for the education question.

density parameter was derived from Census 2000 data. The cell phone usage parameter came from an analysis of the January-June 2011 National Health Interview Survey.[3]

Weighting was accomplished using Sample Balancing, a special iterative sample weighting program that simultaneously balances the distributions of all variables using a statistical technique called the *Deming Algorithm*. Weights were trimmed to prevent individual interviews from having too much influence on the final results. The use of these weights in statistical analysis ensures that the demographic characteristics of the sample closely approximate the demographic characteristics of the national population. Table 1 compares weighted and unweighted sample distributions to population parameters.

CPO	33.0%	19.7%	31.7%

Effects of Sample Design on Statistical Inference

Post-data collection statistical adjustments require analysis procedures that reflect departures from simple random sampling. PSRAI calculates the effects of these design features so that an appropriate adjustment can be incorporated into tests of statistical significance when using these data. The so-called "design effect" or *deff* represents the loss in statistical efficiency that results from systematic non-response. The total sample design effect for this survey is 1.30.

PSRAI calculates the composite design effect for a sample of size n, with each case having a weight, w_i as:

$$deff = \frac{n\sum_{i=1}^{n} w_i^{\,2}}{\left(\sum_{i=1}^{n} w_i\right)^2} \qquad \textit{formula 1}$$

In a wide range of situations, the adjusted *standard error* of a statistic should be calculated by multiplying the usual formula by the square root of the design effect ($\sqrt{deff}$). Thus, the formula for computing the 95% confidence interval around a percentage is:

$$\hat{p} \pm \left(\sqrt{deff} \times 1.96 \sqrt{\frac{\hat{p}(1-\hat{p})}{n}} \right) \qquad \textit{formula 2}$$

where $\hat{p}$ is the sample estimate and n is the unweighted number of sample cases in the group being considered.

The survey's *margin of error* is the largest 95% confidence interval for any estimated proportion based on the total sample— the one around 50%. For example, the margin of error for the entire sample is ±2.9 percentage points. This means that in 95 out every 100 samples drawn using the same methodology, estimated proportions based on the entire sample will be no more than 2.9 percentage points away from their true values in the population. The margin of error for estimates based on form 1 or form 2 respondents is ±4.2 percentage points. It is important to remember that sampling fluctuations are only one possible source of error in a survey estimate. Other sources, such as respondent selection bias, questionnaire wording and reporting inaccuracy, may contribute additional error of greater or lesser magnitude.

RESPONSE RATE

Table 2 report the disposition of all sampled telephone numbers ever dialed from the original telephone number samples. Response rates are computed according to AAPOR definition 3. Thus the response rate for the land line samples was 10 percent. The response rate for the cellular samples was 7 percent.

Table 2:Sample Disposition

Landline	Cell	
902	605	I=Completes
4,742	4,853	R=Refusal and breakoff
2,464	3,114	NC=Non contact
41	24	O=Other
18,435	6,084	OF=Business/computer/not working/child's cell phone
3,345	376	UH/UO=Unknown household/Unknown other
0.31	0.59	AAPOR's e=(I+R+NC+O)/(I+R+NC+O+OF)
9.8%	**6.9%**	**AAPOR RR3=I/[I+R+NC+O+(e*UH/UO)]**

PEW RESEARCH CENTER FOR THE PEOPLE & THE PRESS
JANUARY 2012 POLITICAL COMMUNICATIONS STUDY

N= 1,507 adults 18+ (900 landline and 600 cell phone)
Form 1/Form 2: each a random 1/2 of sample
Pretest: December 21, 2011 (20 LL completes)
Interviewing Dates: January 4-8, 2012
Length of Interview: 20 minutes
7-Call Design
English and Spanish interviewing
Field House: PDS
Job #: ____

LANDLINE INTRODUCTION:
Hello, I am _____ calling for Princeton Survey Research. We're conducting a study about some important issues today and would like to include your household. I'd like to ask a few questions of the **[RANDOMIZE**: "YOUNGEST ADULT MALE, 18 years of age or older, who is now at home" **AND** "YOUNGEST ADULT FEMALE, 18 years of age or older, who is now at home?"**] [IF NO MALE/FEMALE, ASK:** May I please speak with the YOUNGEST ADULT FEMALE/MALE, 18 years of age or older, who is now at home?]

CELL PHONE INTRODUCTION
Hello, I am ___ calling for Princeton Survey Research. We are conducting a study about some important issues today and would like to include you. I know I am calling you on a cell phone. If you would like to be reimbursed for your cell phone minutes, we will pay all eligible respondents $5 for participating in this study. This is not a sales call. **[IF R SAYS DRIVING/UNABLE TO TAKE CALL:** Thank you. We will try you another time…**]**.

SCREENING INTERVIEW:
S1. Are you under 18 years old, OR are you 18 or older?

1 Under 18
2 18 or older
9 Don't know/Refused

IF S1=2, CONTINUE WITH MAIN INTERVIEW
IF S1=1,9 THANK AND TERMINATE: This survey is limited to adults age 18 and over. I won't take any more of your time…

INTRODUCTION TO MAIN INTERVIEW: This will only take about 20 minutes. If you are now driving a car or doing any activity requiring your full attention, I need to call you back later. The first question is…

[VOICE MAIL MESSAGE (LEAVE FIRST TIME A CALL GOES TO VOICEMAIL): I am calling for Princeton Survey Research. We are conducting a study about some important issues today and would like to include you. This is NOT a sales call.**]**

[INTERVIEWER: IF R SAYS IT IS NOT A GOOD TIME, TRY TO ARRANGE A TIME TO CALL BACK. OFFER THE TOLL-FREE CALL-IN NUMBER THEY CAN USE TO COMPLETE THE SURVEY BEFORE ENDING THE CONVERSATION.]

ASK ALL:
SEX **[ENTER RESPONDENT'S SEX:]**

1 Male
2 Female

ASK ALL:
Q.1 Overall, how would you rate your community as a place to live? **[READ]**

1 Excellent
2 Good
3 Only fair **[OR]**
4 Poor
9 **[VOL. DO NOT READ]** Don't know/Refused

ASK ALL:
Q.2 And, overall are you satisfied or dissatisfied with your personal financial situation?

1 Satisfied
2 Dissatisfied
9 Don't know/Refused **(VOL.)**

NO QUESTIONS 3-4

ASK ALL:
Q.5 During a typical month in the past year, how often did you talk with any of your neighbors **[READ]**?

1 Basically every day
2 A few times a week
3 A few times a month
4 Once a month [OR]
5 Not at all
9 **[VOL. DO NOT READ]** Don't know/Refused

ASK ALL:
Q.6 In an average week, about how many days, if any, do you go out in the evenings, either for work or for fun? **[INTERVIEWER: DO NOT READ CATEGORIES; PROBE FOR SINGLE BEST GUESS; IF R INSISTS ON A RANGE, CODE LOWER NUMBER IN RANGE.]**

PRECODES
0 None
1 1 day
2 2 days
3 3 days
4 4 days
5 5 days
6 6 days
7 7 days
9 Don't know/Refused **(VOL.)**

NO QUESTIONS 7-8

ASK ALL:
INT1 Do you use the internet, at least occasionally?

1 Yes
2 No
9 Don't know/Refused **(VOL.)**

ASK ALL:
INT2 Do you send or receive email, at least occasionally?

1 Yes
2 No
9 Don't know/Refused **(VOL.)**

ASK ALL:
INT3 Do you access the internet on a cell phone, tablet or other mobile handheld device, at least occasionally?

1 Yes
2 No
9 Don't know/Refused **(VOL.)**

ASK ALL INTERNET USERS (INT1=1 OR INT2=1 OR INT3=1):
Q.9 Do you ever... **[INSERT ITEM IN ORDER]**?

a. Use Twitter
b. Use social networking sites, such as Facebook, Google Plus or LinkedIn

RESPONSE CATEGORIES:
1 Yes
2 No
9 Don't know/Refused **(VOL.)**

NO QUESTION 10

ASK ALL:
We are interested in volunteer activities for which people are not paid, except perhaps expenses. We only want you to include volunteer activities that you did through or for an organization, even if you only did them once in a while.
Q.11 In the last 12 months, that is since January 1st of last year, have you done any volunteer activities through or for an organization?

1 Yes
2 No
9 Don't know/Refused **(VOL.)**

ASK IF HAVE NOT VOLUNTEERED (Q.11=2,9):
Q.12 Sometimes people don't think of activities they do infrequently or activities they do for children's schools or youth organizations as volunteer activities. Since January 1st of last year, have you done any of these types of volunteer activities?

1 Yes
2 No
9 Don't know/Refused **(VOL.)**

NO QUESTIONS 13-16

ASK ALL:

ATTEND Aside from weddings and funerals, how often do you attend religious services... more than once a week, once a week, once or twice a month, a few times a year, seldom, or never?

1 More than once a week
2 Once a week
3 Once or twice a month
4 A few times a year
5 Seldom
6 Never
9 Don't know/Refused **(VOL.)**

ASK ALL:

Q.17 Here are some pairs of statements. For each please tell me whether the FIRST statement or the SECOND statement comes closer to your own views — even if neither is exactly right. The first pair is... **[INSERT FIRST PAIR; RANDOMIZE PAIRS BUT NOT STATEMENTS WITHIN EACH PAIR]**. The next pair is **[INSERT NEXT PAIR]**.

a. Immigrants today strengthen our country because of their hard work and talents [OR]
Immigrants today are a burden on our country because they take our jobs, housing and health care

b. Homosexuality should be accepted by society [OR]
Homosexuality should be discouraged by society

c. Racial discrimination is the main reason why black people can't get ahead these days [OR]
Blacks who can't get ahead in this country are mostly responsible for their own condition

d. Wall Street HELPS the American economy more than it hurts [OR]
Wall Street HURTS the American economy more than it helps

RESPONSE CATEGORIES:

1 Statement #1
2 Statement #2
3 Neither/both equally **(VOL.)**
9 Don't know/Refused **(VOL.)**

ASK ALL:

Q.18 Generally speaking, would you say that most people can be trusted or that you can't be too careful in dealing with people?

1 Most people can be trusted
2 Can't be too careful
3 Other/Depends **(VOL.)**
9 Don't know/Refused **(VOL.)**

ASK ALL:

Q.19 If you had to choose, would you rather have a smaller government providing fewer services, or a bigger government providing more services?

1 Smaller government, fewer services
2 Bigger government, more services
3 Depends **(VOL.)**
9 Don't know/Refused **(VOL.)**

ASK ALL:
And a few questions about you…
Q.20 In the last 12 months, that is between January 2011 and now, have you contacted or visited a public official - at any level of government - to express your opinion?

1 Yes
2 No
9 Don't know/Refused **(VOL.)**

ASK ALL:
Q.21 Do you currently have a valid United States passport, or not?

1 Yes
2 No
9 Don't know/Refused **(VOL.)**

NO QUESTION 22

ASK ALL:
HH1 How many people, including yourself, live in your household?
INTERVIEWER NOTE: HOUSEHOLD MEMBERS INCLUDE PEOPLE WHO THINK OF THIS HOUSEHOLD AS THEIR PRIMARY PLACE OF RESIDENCE, INCLUDING THOSE WHO ARE TEMPORARILY AWAY ON BUSINESS, VACATION, IN A HOSPITAL, OR AWAY AT SCHOOL. THIS INCLUDES INFANTS, CHILDREN AND ADULTS.

_____ Enter number 1-7
8 8 or more
9 Don't know/Refused

ASK IF MORE THAN ONE PERSON IN HH (HH1>1):
HH3 How many, including yourself, are adults, age 18 and older?

_____ Enter number 1-7
8 8 or more
9 Don't know/Refused

ASK ALL:
Q.23 At any time during 2011, did **[IF HH1=1:** you**; IF HH1>1:** anyone in this household**]** receive any State or Federal unemployment compensation?

1 Yes
2 No
9 Don't know/Refused **(VOL.)**
